9. Prof. Lowry seems to have adapted to online-learning incredibly well. Asynchronous content was short, but provided a lot of information. Synchronous sessions were very productive and involved different types of activities. Prof. Lowry is very adept at explaining and clarifying concepts and responding to student questions as they are asked in real time (something a lot of my other professors struggled with). The assignments are short, but require mastery of specific concepts. All assignments and examinations are gone over in depth during synchronous class sessions. Prof. Lowry really covers all of his bases, in my opinion. Overall, a wonderful class experience with very few hiccups.
